OPTIONS

STICKERS & COVERING

All types of stickers are possible (plain or patterned).
You can also create your own designs using templates provided in EPS format.
Additionally, a wide selection of coverings is available to facilitate the integration of the stand into its installation environment, such as wood, marble, carbon, gold, leather, etc.

PAINT (Included)

Made of steel with EPOXY paint. Any RAL color of your choice is available. Choose between Matte or Glossy finish.

LASER INLAY

During manufacturing, we can integrate a logo, slogan, or punch line directly cut into the steel on the cutting plans. We then affix a frosted plexiglass plate inside
the structure, which is backlit with LED lighting. This LED lighting is customizable as per your preferences.

Screen 4k
